

_NICOLE JUTKA_BIOGRAPHY (short) AND CV

"Her art is unique and new.

The distinctive expressive line can easily be recognized as one of the distinctive features, unparalleled in its artistic perception and character. Jutka approaches aspects such as coloristic emphasis, fluorescent references and artistic feeling with meaning and expressiveness, and these elements represent outstanding points of his creations."

Dr. Peter Markovik, art critic, curator of Löffler Muzeum Kosice/Slovakia.

Artist, art teacher, designer was born and raised in Bucharest during the communist period. Her escape from the communist and totalitarian state was difficult and dangerous - her attempts failed several times. Thus, the desire to escape remained Jutka's constant companion. Together with her brother, Jan Stoian, a well-known jazz musician, Jutka courageously demonstrated in 1989 against Nicolae Ceaușescu, his dictatorship and for human freedom. In 1990, she finally managed to emigrate to Germany. He lives between Bucharest and Bedburg/Germany.

For Jutka, it is very clear that the form and content of his works matter as much as how, why and for whom he makes them with very deep ethical convictions.

As a premise, his visually impressive, highly chromatic and laborious works are inspired by observing cultural, social and political developments, working in concepts and exhibition projects. "My experience as a teacher encouraged me to think about how art could to have an impact and engage the public more directly," says Nicole Jutka. In her 12+ years as an art teacher, she has been very active, impacting over 200 art education projects in her own art school or in various institutions with over 2000 participating students.

Nicole Jutka has the courage and talent to use a strong range of colours, specialising in fluorescent colours which she integrates into black light, creating a double existence of the artwork, both in light and dark. A double existence, the parallel life or so-called "soul" of the painting that takes on a 3 D, like a sculptural painting, in a political and aesthetic context, a language that ethically and interactively serves the audience.

Since 2013, Nicole Jutka has been exploring the relationship between light and darkness in the concept "**LIGHT PENETRATES DARKNESS**", a powerful theme about our existence, a philosophical and spiritual Pandora's box. It uses fluorescent pigments to allow the viewer to enter another dimension, creating a universe of brightness and vivid colour. Each composition transforms according to its surroundings, like a moving image sculpture. With this concept begins the international and itinerant approach in several countries: **DARTE GALLERY, NIJNY HRUSKO / SLOVAKIA (2014, SOLO), LÖFFLER MUZEUM; KOSICE / SLOVAKIA (2015, SOLO), NATIONAL MUSEUM OF THE ROMANIAN TARAN / BUCHAREST / ROMANIA (2015, SOLO), Kult Gallery, BEDBURG / GERMANY (SOLO), ART SAFARI, BUCHAREST / ROMANIA (2016, 2017), Kunstraub Gallery, COLOGNE / GERMANY(2016, SOLO), MIHAI EMINESCU MUSEUM; IPOTESTI / ROMANIA 2017); NATIONAL MUSEUM BRAN, BRAN / ROMANIA (2017), UNESCO CULTURAL CENTRE (2017,2018), Alexandra's Gallery; BUCHAREST / ROMANIA (SOLO), HISTORY MUSEUM; CONSTANTA / ROMANIA (2018).**

AWARDS: FESTIVAL 18. ROČNÍK PREMIO INTERNATIONALE D'ARTE SAN CRISPINO / ITALY", for the artworks WINGS and PAIN; 2017 ARTA VITA CONTEST, Santa Barbara / USA (work "FUTURE DAY"). The piece was widely acclaimed by press, television. TVR Markiza, Canal33, Modernism, Romania libera, Radar, Caminul, new diaspora, Radio Romania, Werbepost, Kölner Stadt Anzeige, Kosice Spravy, vranovske novinky magazin, laetitia vitae magazin, Sonntag werbepost, Kölnische Rundschau etc.(2018-2014 - Nicoleta Jutka - Romanian Artist (nicoleta-jutka.de)

2016 brings him the PREMIO INTERNAZIONALE D'ARTE, "PREMIO SPECIALE DELLA GIURA", San Crispino, Italy, for the paintings "Wings" and "Pain; in private collection USA.

Experimenting with various mediums and artistic techniques, the artist continually discovers new ways and integrates them into her creations. Tackling fields such as painting, printmaking, graphic design, artbook, digital technology, artificial intelligence, sculpture, installation and performance, she displays a genuine passion for interdisciplinarity. The artist embraces complexity by working in distinct thematic series such as **'LA VIE EN...ROSE', 'JOURNEY OF THE ANT', 'LOVE. NO WAR', 'NEW PEOPLE', 'PRAY FOR LOVE AND PEACE. TO HAVE OR TO BE.'** These series reflect the diversity and depth of his artistic vision, offering a broad and engaging artistic experience

"In 2020, marking the pandemic period, German-Romanian artist Nicole Jutka receives well-deserved international recognition at the third edition of the prestigious **GLOBAL ART AWARD in Shanghai, China**. Her work entitled "Start to Beginning Again" measuring 420x120x4 cm takes first place in the "Abstract Painting" category. Her impressive composition is made with fluorescent interventions, a technique the artist has developed over the years. Using acrylic, oil and chalk, she evokes extraordinary forms of nature in an abstracted, almost fantastical mirroring. This painting installed under black light brings 3D depth and profundity, thus creating, in a single work of art, two different worlds: one in light, the other in darkness; a reality and a mirror. The common themes are approached in search of the trials and tribulations of the essence of the creator of beauty, of the human being behind the work of art and of life through the prism of love as transcendence. Light and dark are not seen as dichotomous, but reveal states of mind and experiences from a self-analytical perspective" Mariela Vanu, journalist

*GLOBAL ART AWARD; SHANGHAI CHINA "Start to beginning again", 420x120 x4 cm,

Multiculturalism and diversity are themes that the artist experiences personally, being part of minorities. These issues are reflected in her creations, particularly in her art series entitled "**NEW PEOPLE**". In parallel to her artistic work, Nicole Jutka contributes to educational projects in Germany through her initiative called "**PART OF WORLD**".

Jutka's extensive engagement is remarkable, combining his artistic practice with an obvious dedication to society. Collaborating and actively involved in the community, the artist stresses that "it is irrelevant what ethnicity you belong to, what you own or what you are, what is What is important is your inner light and love for your neighbour. To be human. Equal where you are", says the artist with passion. Nicole Jutka is an exceptional artist who does excellent artistic and social work and makes significant social contributions wherever she is.

PERFORMANCE LIFE IN..PINK

In preparation for 2024, an innovative concept, initiated in 2023, will take place in Berlin (still planned), combining traditional art with an immersive performance in the exhibition "PRAY FOR LOVE AND PEACE. TO BE OR TO HAVE". This touring project aims to symbolically send a white dove into space, a beneficial thought calling for prayer for world peace. The white dove is known as a symbol of peace, especially after the Second World War, when it was used to represent the desire for peace and reconciliation between nations.

The "PEACE DOVE" series is part of the "PRAY FOR LOVE AND PEACE. TO HAVE OR TO BE" concept, serving as a manifesto for peace. It comprises over 50 works generated by artificial intelligence, processed by digital drawing, enriched with fluorescent acrylic on canvas and exposed under black light. These pieces are then transformed into an immersive performance, accompanied by music and musical arrangements created by Bogdan Stoian, with the voice of Viktoria Dimitrova (Vika Mirova from Ukraine) and text by Nicole Jutka (<https://youtu.be/IVJXbipR3uY>).

The message is that people can live in peace, regardless of their nationality or origin. The key is inner light, love for others and respect for nature. "Let's join our voices to advocate for PEACE AND LOVE IN THE WORLD. This action is crucial today and represents my deep wish as a human being and mother."

ARTIST STATEMENT_

My work is based on the message of light penetrating the darkness, a profound concept that houses a philosophical and spiritual Pandora's box of our existence: "Light penetrates darkness".

I interpret light as love, joy and peace, essential attributes necessary for human existence, bringing into discussion aspects such as its origin, our ways of discovering it and its necessity in our existence. I study this idea, exploring the adventure of searching for it, without knowing for sure where it will take me. I am drawn to forms that exude life, that are not static. Capturing the breath of nature through subtle contrasts and the use of intense colours, captured by the shaped matter, is an alchemy that fascinates me.

They use fluorescent pigments to introduce another dimension, 3D, penetrating the dark space. In this way, the paintings metamorphose under the black light, becoming a new creation, like a moving pictorial sculpture, revealing the interior or soul of the painting. This represents two totally different perspectives, two parallel existences coexisting in a dialogue between reality and transcendence

"The Lake" reist um die Welt

Eines der markantesten Bilder der aktuellen Ausstellung in Glarus ist "The Lake" von der rumänischen Künstlerin Nicole Jutka aus ihrer Kunstwerk-Serie "Licht durchdringt die Dunkelheit - Hängende Gärten". Fluoreszierende Farben sorgen mit der richtigen Beleuchtung für einen ganz besonderen Effekt. Bevor das Kunstwerk seinen Weg in die Galerie von Joana Dürig fand, war es Teil internationaler Ausstellungen in Miami, Wien, Zürich und der Biennale in Venedig.
